[illegible]ne's South American Policy Severely Criticized.

NEW YORK JOURNAL MAKES A DISCOVERY.

[illegible] Louis and San Francisco Railroad Situation--Gould and Stanford in the New Road--Sporting and Criminal Notes.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

[illegible] YORK, Jan. 28.—Papers this morning give [illegible] space to what is termed Blaine's [illegible] policy, in the shape of letters, documents [illegible] interviews. The Herald's correspondent interviewed Shephard, president of the Peruvian company [illegible], in which the latter says he has letters [illegible] Blaine not very flattering to that gentleman, [illegible] the whole comes out he will never lift [illegible] head again. Shephard dares Blaine to publish correspondence between them. Shephard furnishes a letter from himself to ex-Gov. Boutwell, [illegible] of the Peruvian company, dated Dec. 10, [illegible] that interviews had been held with Hurlburt in New York, at which Hurlburt [illegible] him of executive support, the substance [illegible] Shephard subsequently rehearsed to Blaine [illegible] Blaine denied acquiescence. Later a [illegible] written Hurlburt, giving an unreserved [illegible] of the plans of the company, a copy of [illegible] sent to Washington and Blaine acknowledged its receipt. Shephard says in the letter [illegible] Boutwell. "Every allegation in the [illegible]'s letter concerning the alleged [illegible]ity of correspondence between [illegible] and Hurlburt, and its discussion [illegible] the secretary and myself, is invention, [illegible] simple, and worse than inexcusable. Such [illegible] was never made by either of us at any [illegible]. In both the first and second interviews [illegible] secretary, he dwelt at length and emphasis [illegible] fact that it would be alike his duty and [illegible]ure to favor any legitimate scheme, such as [illegible] whereas he had been unable to help the French [illegible] because it is "not American." He added [illegible] pointed out this distinction as vital, and [illegible] stated to him that if he ever had Americans [illegible] with his department they might help him [illegible] thereupon suggested to me that I might [illegible] myself of the co-operation of this syndicate [illegible] my interests at the front. The statement [illegible] told me he would instruct Hurlburt to examine report on this claim, is another unqualified [illegible]. Nothing of the kind was ever suggested [illegible] at any interview. At the close of his interview [illegible] asked what I wanted him to do, and I [illegible] only this: Instruct Hurlburt to notify [illegible] Peru, that the Landreau claim must be [illegible] the Cachet claim adjudicated, before any [illegible] settlement which might affect the [illegible] owners of these claims are agreed on. [illegible] which will show qualifies [illegible] mistake the entire letter, was these

[illegible]—Of course we shall be glad to have [illegible] so far as it may be entirely proper, and [illegible] friends, interested, and I will reserve [illegible] of the whole stock subject to your ad[illegible] of payment can suit individual convenience. Very respectfully, JACOB SHEPHARD.

[illegible] Hurlburt, Belvidere, Ill.

[illegible] says the offer was to sell stock, and he [illegible] to have no money. At the very first [illegible] I had with the secretary I quoted this letter [illegible] of the fact that I had not bought his [illegible] had not offered to buy him, and not [illegible] suggestion of criticism escaped him [illegible]. On the contrary, when I asked his attention [illegible] the charges of gross corruption with [illegible] Lima was ringing, a jocular allusion by [illegible] present to my dullness in only offering [illegible] within proper limits to him or his [illegible] a hearty laughing affirmance from [illegible] dismissed all charges with the chaffing [illegible] that we might depend that Steve would [illegible] explanation of them all ready. Shephard [illegible] to Blaine by Senator Blair, who, [illegible]'s advice became one of my counsel and [illegible] the uttermost an every delusion and approved [illegible] step I took.

[illegible] concludes his letter to Gov. Boutwell [illegible] "To you we look to introduce us to the [illegible], whoever he may be, and as the retiring [illegible] has imbedded in the records of the de[illegible] this letter you may be called on at the [illegible] to explain it."

A Newspaper's Discovery.

[illegible] Jan. 29.—An obscure journal of this [illegible] acquired some evil reputation as a dis[illegible] of the famous Morey letter, devotes a [illegible] to the evils of opium smoking, [illegible] describes and enlarges upon in a fabulous [illegible] It comments as follows: The [illegible], honest description of the local [illegible] which is spreading so rapidly over [illegible] that it threatens to bring ruin into [illegible]. Coming from China, it began its [illegible] the American people in San Francisco. The [illegible] of repressive laws soon became [illegible] and in California, as in Nevada, it [illegible] to conduct an opium joint and a [illegible] found in one. Most of us have [illegible] on the Pacific slope, and east[illegible] have some idea, though a very [illegible] revolting and destructive character [illegible] "opium fiends," as they call them[illegible] supposed that these iniquitous [illegible] in the most populous district [illegible] less that they were conducted, [illegible] by men of our own race, and [illegible] women and boys. Our article this [illegible] a revelation.

[illegible] Compromise to be Made.

[illegible] Times' Boston special: The [illegible] who have been consulting with [illegible] Huntington, reached home to-day and [illegible] a proposition which is favorable [illegible] Boston to save several millions' [illegible] construction in California and connect the [illegible] with the Southern Pacific at Mojave [illegible] will take about three millions to complete [illegible] to the Colorado river, 550 miles from Al[illegible] is 311 miles from Mohave to this [illegible] the Southern Pacific desires to build. [illegible] proposition is to place the Southern [illegible] traffic guarantee upon the A. & [illegible], and to furnish half the money for build[illegible] Colorado river. The Atchison company [illegible] build the A. & P. to Mohave, and the [illegible] be decided Monday next. Huntington [illegible] desire to stop so much railroad [illegible] great confidence in the A. & P. To-day a unanimous [illegible] found declaring him guilty. Hoffman is [illegible] most prominent and talented Methodist [illegible] in the west and is aged 47. He [illegible] desperate resistance, but finding capture in[illegible] blew the top of his head off. All the families [illegible] connected were eminently respectable. The [illegible] the shooting is shrouded in mystery.

Fatal Boiler Explosion.

[illegible], Maine, Jan. 29.—The explosion at [illegible] mill of the Kennebec Framing Co. at [illegible], Maine, was caused by a patched and leaky [illegible] consequent scarcity of water therein. WASHINGTON CITY.

Blaine's American Policy.

NEW YORK, Feb. 28.—The Evening Post's Washington special says: Blaine will be sure to set forth his side of the story regarding his South American diplomacy, and make it an issue in his entire political relations. His general policy was to organize a confederation of American republics. The idea originated with the late Nicaraguan minister, who corresponded on the subject with leading South American statesmen, and receiving favorable replies broached the subject to Blaine. The latter was favorably impressed, and subsequently shaped his course in that direction. It was thought a bold front toward Europe might become necessary, and with that in view he proposed abrogation of the Clayton-Bulwer treaty, and also intended to favor a policy which would release Cuba from Spanish domination and free the gulf from European control. Blaine's friends claim his instructions to Trescott were sent after a full consultation with Arthur, but that the latter now shrinks from the consequences of the policy. He has no doubt contemplated uniting American republics in event of war with European nations, and so far from seeking to explain away his policy Blaine regards it as the crowning work of his genius.

Kirkwood on the Mormons.

Secretary Kirkwood, referring to rumors that the Mormons are inciting Indians in the west, said he had very little faith in the story. While it was undoubtedly true that the Mormons might seek the friendship of the Indians in the event of trouble with the United States, it could not be possible they would attempt to defy the United States government. An effort of that sort would have a very different result from that which attended the early campaign to Salt Lake.

Disagreeable weather the past week has caused general dullness in the freight market via Cape Horn, and very little has been done at wharves of California ships. However there has been considerable inquiry for freight yet to be delivered by manufacturers, who in many instances are behind in orders. The ship W. H. Lincoln has cleared and will sail to-morrow. The T. J. Southard will finish next week and probably be the last vessel of the month. Rates retain firmness, and there is no indication of weakness. Owing to the high prices demanded by ship owners for vessels tonnage is still scarce, and there is but very few California liners pointing this way. No new charters are noted. Railroad freights are beginning to pick up and will soon be active.

NEW YORK, Jan. 29.—The advent of pleasant weather has caused more activity about California bound ships, and the T. J. Southard and W. H. Lincoln have made much progress. The latter has finished her loading, while the former will in a day or two. Offerings are of a very miscellaneous character but chiefly of heavy goods, such as iron, coal, nails, etc. Shipments of agricultural goods are over for the season except perhaps a few odds and ends. Freights remain very steady at last week's quotations.

Isthmus freights are quiet and no move has been made toward antagonizing the railroads. The Mail company continues to take all freight offered at a fair rate, although they do in case of necessity make a special rate for special classes of freights that railroads do not seek.

Freights at Boston are fairly active and the Portland Lloyds is doing well but will be unable to get off this month. Railroad shipments at Boston are active, including 415 packages fish, 500 cases corn, 30 bbls rum, 85 cs canned fish.

At Philadelphia there is no ship on berth and as a consequence nothing doing in the freight market.

An Independent View of Sargent.

WASHINGTON, Jan. 29.—The Sunday Herald, an independent democratic journal, says to-day: "It is understood that the nomination of Hon. A. A. Sargent to be secretary of interior, which was determined upon sometime ago, the appointment having been deferred partly to enable Sargent to finish up some professional business as counsel with the department, will be sent to the senate early next month. The interval which has elapsed since the president decided upon this appointment, by permitting malignant, but abortive attacks upon Sargent, has only strengthened him in the esteem of the president and of the public. Assailed as the author of the desert land act, the record shows that Sargent was not the author of the act, which originated in the house of representatives, then democratic; but that he offered several amendments which were adopted in the senate, calculated to guard against the abuses and frauds from which no land laws are entirely exempt, since the acquisition of land fraudulently is more frequent under the homestead acts than under any other statutes. It is stated that the announcement of Sargent's prospective appointment as secretary of the interior has been heartily approved by all the newspapers of California, both republican and democratic, with but a single exception.

Bills and Resolutions Introduced.

The house committee on claims have reported favorably upon Representative Page's bill directing payment of $7,500 to children of the late James H. Carleton for property in New Mexico destroyed by General Canby in 1862.

Senator Aldrich has introduced a bill to confirm the El Sopori grant in Arizona to the Sopori land and mining company of Rhode Island.

Senator Miller has introduced a bill to place Sergeant Cornelius Huntington on the army retired list, with full pay, on account of wounds received in action and disease contracted while a prisoner of war; also, by request, a bill to increase the compensation of the chief deputy and cashier of the internal revenue collector at San Francisco to $3000 and $2500 respectively.

Senator Grover, on Friday, presented to the senate an application, signed by 426 citizens of Oregon and Washington territory, urging congress to declare a forfeiture of the Northern Pacific railroad grant, and to open the forfeited lands to settlement.

Union Pacific Reports.

WASHINGTON, Jan. 29.—The secretary of the interior has transmitted to congress the report of the government directors of the Union Pacific R. R. Co. for 1881. The directors claim enormous benefits have resulted in the west from the completion of the road in developing its latent resources. The report contains a detailed statement of the progress made in construction of branch lines and of changes in the main road itself calculated to increase its efficiency. There were 75,692 acres of land sold for the nine months ending Nov. 30, 1870, at an average of $4 93 per acre. The local earnings of the company are said to be ninety per cent. of its surplus earnings, while at the beginning of its operations through freights represented seventy per cent. of the earnings. The directors have not considered it necessary to go into the financial operations of the company as those matters are embraced in reports to the auditor of railroad accounts and which are already published.

An Eastern Comment on the Chinese Bill.

WASHINGTON, Jan. 29.—The Sunday Gazette, independent and anti-monopoly journal, contained a well considered editorial to-day on the Chinese question, in which the evils of unrestricted mongolian immigration are clearly stated, and various eastern sentimental objections to any legalized exclusion of Chinese are forcibly answered. Referring to the proposition now pending in congress to suspend immigration of Chinese laborers for a term of twenty years, the Gazette says: "We earnestly hope in the true interest of our civilization that the measure may speedily become a law and then it will be enforced to the full extent of its intent.

A Washington Dinner Party.

Corkhill's Opinion.

As an indication of how little weight is attached by prosecution to the motion of Scoville for a new trial, District Attorney Corkhill remarked to-day before a number of gentlemen that Guiteau will undoubtedly be sentenced and as surely executed not later than June 10th.

ARIZONA.

Arizona Improvement.

NEW YORK, Jan. 29.—The parties who purchased the Santa Catalina copper mine for a large sum have just come in from a visit to their property. They estimate that their furnace which is now here will be in operation in 40 days, and will turn out from three to five tons of block copper per day. They found the body of ore much larger and richer than reported. One road to the mine has just been completed at a cost of $8000 and another road has just been contracted for from the copper mine to American Flag at a cost of $5000, to be completed within one month, which will bring the company's mines and works twenty miles nearer Tucson than by the former road. Opening these roads is of considerable importance to Tucson, as it opens the door to the vast timber regions on Catalina mountains, heretofore deemed inaccessible. The timber there can only be estimated by millions of feet. There is sufficient quantity to supply southern Arizona and New Mexico for years to come. The principal timbers are pine, cedar and fir, and the distance from Tucson by the new route is 70 miles.

General Arizona Notes.

TUCSON, Jan. 29.—A Star special received from Shakespeare, New Mexico, says a 30 ton smelter of Shakespeare consolidated smelting company started up last night amid general rejoicing. The result of the first run of 14 hours is 15,000 pounds of high grade ore.

Many thousands of people yearly are saved from dangerous fevers by the exercise of a little timely care in the matter of properly cleansing the system in the spring season from the accumulated impurities, which, if undisturbed, breed disease. As a purifier, Ayer's Sarsaparilla acts directly and promptly. A single bottle will prove its merits.

FOREIGN NEWS.

A New French Cabinet Formed, vice Gambetta's.

RUSSIAN PERSECUTION OF THE JEWS PROTESTED AGAINST.

A Plot Discovered to Assassinate the King of Greece--Successful Introduction of Balfe's New Opera in London.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

NEW YORK, Jan. 2.—The World's London cable: The persecution of the Jews in Russia continues to awaken the deepest sympathy among all classes here and to provoke strong feeling against Russia. Gladstone's refusal to remonstrate with the Russian government is strongly condemned. When the bastard and mongrel population of Bulgaria was badly treated the premier made all Europe ring with denunciations of the unspeakable Turk, but he was not in power then. The Rothschilds and other powerful Jewish families are raising a fund for the emigration of Russian Jews to the United States, but they cannot do much without active aid from the government, and this Gladstone declines to give them. The Russian authorities appear to be encouraging the war upon Jews, probably because Jew baiting is heading off nihilism. Dispatches relating to the brutalities perpetrated upon the unhappy people are suppressed by the military censorship, but the tales told by fugitives show that they are being subjected to the vilest treatment and tortures. The czar, who is said to be personally well disposed toward the Jews, is powerless. All his time is devoted to providing for his own safety, and his chief officers prefer that the peasants should murder Jews rather than dig dynamite mines. It is stated on good authority that German residents in Russia are also being maltreated, and that when the Jews are disposed of the peasants will make short work of Bismarck's compatriots. The czar and the Emperor William are continually exchanging love messages, but their subjects cordially detest each other.

A Typographical Error.

NEW YORK, Jan. 29.—World's London cable says: A hideously indecent expression was interpolated in the Times' report of a speech by Sir Wm. Harcourt last Monday. The matter was made worse by an apology yesterday, and a statement that the management of the Times hoped to bring the guilty parties to justice. This has increased the morbid curiosity of the prurient, and copies of the issue referred to have been sold for one pound each. It is said that twenty compositors and two proofreaders have been discharged from the Times office. The low weekly papers reprint the report verbatim, and these papers are being sold by thousands in the streets. It's doubly annoying to all parties to have this filthy expression put in the mouth of the home secretary. Sir William, by the way, will succeed Lord Selborne as lord chancellor. Sir Henry James, the general, is not a popular man with his party, and Lord Chief Justice Coleridge prefers his present position to the woolsack.

Unhealthfulness of London.

NEW YORK, Jan. 29.—London special: The great prevalence of scarlet fever in the fashionable parts of London begins to excite alarm. Belgravia and South Kensington have suffered very severely, and many people think the infection is carried about in cabs, while others ascribe the unhealthiness of the west end to the fact that all that bank of the Thames was a marsh in Anglo-Saxon times. Both theories are somewhat far-fetched. The mansions of the rich appear to be more given to attack than the dwellings of the poor. Diphtheria of a fatal character is unusually rife. The Duchess of Sutherland and her daughter are very ill with whooping cough.

Consideration of Bourse Matters.

NEW YORK, Jan. 29.—The Herald's Paris cable says: According to to-night's Soir an important meeting of Paris bankers was held to-day to consider by what means the threatened financial disaster on the Bourse could best be avoided. Among the gentlemen present were Baron Saubegan, Baron Rothschild, Joubert, Mallet, and representatives from seven or eight others of the richest banks in Paris. The banks represented at the meeting agreed, says Soir, to advance, if necessary, a sum not exceeding 85,000,000 francs, the repayment of the sum to be guaranteed by the official Paris brokers collectively.

An Excellent Entertainment.

A Herald's London cablegram says: Last night Balfe's grand opera, "The Painter of Antwerp," was produced for the first time in England, at her majesty's theater, and proved a well-merited success. It was magnificently mounted. The chief parts were taken by Mme. Valleria, as Olivia Campania, Mdlle. Warwick as Donna Ines, Mr. Macguikin as Antonio Moro, the painter, and Mr. Leslie Crotty as the Duke of Alva. The house was crowded in every part, and encores were demanded of several of the most pleasing airs.

Business Troubles at Dublin.

LONDON, Jan. 29.—The Observer's correspondent at Dublin says there was another and larger failure on stock exchange reported yesterday. It is expected two or three large houses will fail the present week unless assistance is rendered them. There has also been one failure in the foundry business and one in the building business; liabilities, £60,000 and £150,000 respectively. There is quite a local panic, and business is at the lowest ebb. Tradesmen are endeavoring as far as possible to collect debts, but as debtors are mostly landlords, there is no possibility of settlement for a month to come.

The New French Cabinet.

LONDON, Jan. 29.—Dispatches from Paris state that the new French cabinet will comprise the following: Leon Say, minister of finance; Tirard, of commerce; Goble, of the interior; Admiral Jauregueberry, of marine; Vaney, of public works; General Campenon, of war, and Cochery, of posts and telegraph.

The Revised Cabinet of France.

PARIS, Jan. 29.—The list of the new ministry, as settled upon by the present house, is as follows: De Freycinet, president of the council and minister of foreign affairs; Jules Ferry, of public instruction; Goblet, of interior and of worship; Humbert, of justice; Varroy, of finance; Carnot, of public works; Tirardi, of commerce; and Cochery, of posts and telegraph. The ministers of war and marine are not yet designated.

Germany and the Vatican.

BERLIN, Jan. 28.—Herr Von Schloeser will start Monday for Rome to enter upon his duties as German embassador at the Vatican. It is reported that since the opening of the Prussian diet negotiations with the Vatican progressed so well that the government will be able to submit fresh ecclesiastical bills.

A Carlist Movement Feared.

MADRID, Jan. 29.—Considerable stir has been caused here by the publication of a circular letter from the papal nuncio to the bishop, recommending that they use their best efforts to promote a pilgrimage to Rome. Newspapers urge that the government assume an energetic attitude in presence of the nuncio's conduct in openly patronizing what they declare would likely prove a Carlist demonstration.

Land League Speeches.

Bishop Manoque last night presided at a very large meeting at Piper's opera house, at which Healy, the Irish patriot, spoke in favor of the cause of the national Irish league.

Mormon Meeting in England Broken up.

LONDON, Jan. 28.—Six Mormon elders held an open air meeting at King's Cross yesterday. The meeting was broken up by a large crowd who attacked the Mormons. Several persons were hurt.

Another Irish Outrage.

LONDON, Jan. 28.—The bodies of Huddy, a process server, and his nephew, who recently disappeared from the neighborhood of Ballinrobe, Ireland, have been found in bags which had been sunk by means of large stones. The place where the bodies were found is near the house of a man named Carrigan, who is now under arrest on suspicion.

DUBLIN, Jan. 28.—Twenty arrests have been made and a number of treasonable papers found by the military and police, in County Galway.

CORFU, Jan. 28.—A plot against the life of the king of Greece has been discovered. It was to murder him on a journey.

SOUTH AMERICA.

Peruvian News from Panama.

NEW YORK, Jan. 28.—The steamer Colon arrived last evening. Her news is generally unimportant. Under date of Panama, Jan. 18, we learn that Gen. Lynch left Lima, Jan. 2, at the head of a formidable expedition against the Peruvian Chieftain Cacerres. The forces of the latter were soon dispersed. The Chilians were well received by the people along the line of march, who hailed them as deliverers of the terrible evil of Montoneros. The disappearance of Cacerres' troops and the establishment of Chilian troops in the Jauja valley, has been of great benefit to the cause of peace. It will reopen trade with the coast and enable farmers and graziers to get their produce to market, and will assist to revive business in Lima.

On the night of Jan. 4, the second expedition started for the interior of Peru, but on a better route than that taken by Gen. Lynch. It was about 3000 strong, principally cavalry and infantry, under command of Col. Lagerres.

The Prado monastery at Lima was recently invaded by 40 scoundrels, who took everything of value possessed by the nuns, robbed the chapel and even altars of their sacred relics. No trace of the thieves. The Prado monastery was one of the richest in the city and has about 300 nuns and novitiates.

It is reported that Chili is resolved on the annexation of Tarapaca. In a circular of Dec. 21, the Chilian Secretary of state for foreign affairs, Balmaceda, reports that Chili demands an indemnity for war expenses paid in that territory, as imposed upon Peru and Bolivia, by the fatal and unavoidable law of necessity.

SCOVILLE'S MOTION FOR A NEW TRIAL.

WASHINGTON, Jan. 29.—This afternoon Scoville filed in the criminal court [illegible] a motion for a new trial. Not [illegible] the practice in this district [illegible] exceptions [illegible] the right of review by the court. [illegible] the papers filed in support of [illegible] the prisoner's affidavit, affidavit of Frederick H. Snyder [illegible] newspaper [illegible] by the jury [illegible] that it had been read by the jury, the affidavit of J. W. Guiteau [illegible] with the signatures of the jurors whose names are written on the margin of a newspaper said to have been seen by the jury, and that he has seen them write their names and believes the writing on said newspaper to have been made by the jurors. The last affidavit is by Mr. Scoville, setting forth newly discovered evidence upon which he bases a motion for a new trial. The first paper is a motion for a new trial upon the following ground:

First—By reason of uncertainty in said verdict in that the jury thereby found the defendant guilty, whereas the indictment consists of different counts variant from and inconsistent with each other in matters of substance.

Second—That such verdict of the jury does not specify which count or counts of indictment it was founded upon, and several of the counts being materially different from the others, the defendant is not advised by the form or substance of said verdict as to the finding of the jury upon the material facts of death or place of death of deceased.

Third—For that the trial of this cause was commenced at the June term of this court and was not concluded in the same term of court but was extended into the December term without authority of law.

Fourth—For that this court had no jurisdiction of this cause by reason of decease having taken place outside the District of Columbia.

Fifth—For that the court erred in overruling each and all prayers upon questions of law asked by counsel for defense, and in refusing to instruct the jury as requested in each of the fourteen prayers proposed by them.

Sixth—That court erred on trial of this cause in excluding proper evidence offered by defendant as set forth in bill of exceptions.

Seventh—That court erred on trial of this cause in admitting to go to the jury improper evidence on the part of prosecution as shown in bill of exceptions.

Eighth—That court erred in commenting improperly during the trial upon the conduct of the defendant in entering into an arrangement with the district attorney (without knowledge of counsel for defendant), whereby the jury and expert witnesses for prosecution during a portion of the trial might observe certain conduct of defendant, to subserve the purpose of the prosecution, the defense being insanity, without the restraining power of the court being exercised until those purposes were accomplished, to the great prejudice of defendant.

Ninth—Misbehavior of the jury in reading, or having read to them, newspapers calculated to prejudice their minds against defendant, as shown in affidavits of Frederick H. Snyder, George Scoville and John W. Guiteau, filed herewith.

Tenth—By reason of new and material facts, unknown at time of trial, and not ascertainable by reasonable diligence on the part of defendant or his attorney, having come to light since the trial, and shown in affidavit filed herewith.

Eleventh—That the verdict is contrary to the evidence.

Twelfth—That the verdict is contrary to the law of the case. GEO. SCOVILLE, Defendant's Att'y.

PACIFIC COAST NEWS.

CALIFORNIA.

A Statement of Account.

SAN FRANCISCO, Jan. 29.—It is represented that after giving John T. Best, late chief clerk of the engineer's department of the lighthouse service, credit for all vouchers alleged to have been forged, his accounts are still short $12,761, or in other words, there is that alleged deficit between the amount he drew from the U. S. treasury during the past three years and the amount of disbursements as shown by his books, including nearly $40,000 of vouchers claimed to have been forged.

Opposition Meetings.

Two opposition anti monopoly meetings were held this afternoon, one presided over by Denis Kearney at the sand lot, and the other by Dr. C. C. O'Donnell at the new city hall steps. The meetings were addressed by Kearney and O'Donnell. Both were slimly attended and very little enthusiasm was manifested.

Meeting of the California School Board.

SACRAMENTO, Jan. 28.—The state board of education met at the office of the superintendent of public instruction yesterday. Present, Gov. Perkins, Supt. Campbell and Prof. Allen. A communication was received from Mrs. A. A. Sargent, Mrs. Theo. H. Hittell and others, a committee of the California Silk Culture Association, asking the board to recommend that teachers and pupils of the public schools give special attention to that very important branch of industry. The board directed the superintendent to call the attention of teachers and school officers to the subject through the official department of the School Journal. A resolution from the Alameda county board of education, recommending that the board seek power from the next legislature to issue a second grade life diploma on a second grade city, state or county certificate, was laid over for consideration at the next meeting.

Fatal Row at San Jose.

SAN JOSE, Cal., Jan. 28.—This afternoon Rodolpho Buelna, a gambler, better known as "Limber Jim," was shot and killed in the Mint saloon, on Santa Clara street, by P. J. Williams, the well known horse trainer and jockey. Three years ago Buelna and Williams had a difficulty. This afternoon Buelna procured a pistol and, while intoxicated, hunted up Williams. He went to a saloon where the latter was employed and began abusing him, threatening to kill him. Parties interfered and put Buelna out of the saloon. Williams armed himself, and meeting Buelna soon after, the quarrel was renewed. Williams drew a pistol and fired three shots, all taking effect in the left breast, killing Buelna instantly. Williams surrendered himself to the authorities immediately after the shooting.

NEVADA.

Comstock Notes.

VIRGINIA, Jan. 29.—At Sierra Nevada the winze in crosscut No. 2 has been sunk 9 feet during the week. Crosscut No. 5 was extended 24 feet and the main north drift 35 feet. The material at all points remains unchanged. At Union the north lateral drift was extended 24 feet and south lateral 40 feet. South drift No. 2 was advanced 42 feet. No change of material is reported in east crosscut No. 2 from the latter drift. Ophir has extracted 198 tons of ore and sent 354 tons to the mills. The north drift from the end of joint Mexican east drift of the 2900 level is out 28 feet. At Yellow Jacket the east crosscut on the 2820 level is out 208 feet, the last 30 feet in quartz and porphyry. On the 3000 level the east drift from the switch is out 499 feet in hard dry ground. They are now drilling east from the face of the east crosscut at the end of the north lateral drift, and the hole is in 258 feet. The drillings show quartz and porphyry with a slight flow of water. Drilling is still continued, and at the Alta the east drift of the 2150 level is out 49 feet and rock growing softer. The west drift is out 704 feet.

A New Strike in Eureka.

EUREKA, Jan. 29.—The Sentinel of this morning publishes the following: It will be cheering news to the public, and Albion stockholders in particular, to learn that a strike was made in the mine yesterday afternoon, at a point entirely removed from the ground in controversy with the Richmond. The find is at a depth of 350 feet from the surface, and 400 feet west of what is claimed as Victoria territory. The ore was discovered in a drift from the main level, into which the miners struck all of a sudden, though favorable indications had been encountered for some time. Of course the extent cannot yet be told. The workmen are confident that they are in the face of a bonanza of no mean proportions, as the surroundings are favorable. The ore taken from the strike is a yellow carbonate containing molybdate of lead. The ore smelts easily, and that will prove a blessing to our furnaces. Should the strike turn into a bonanza, as is confidently believed by the miners, the west side of Ruby Hill will experience a boom that will set all the mines in that section into active operation, and give employment to hundreds of men. Its immediate benefit can scarcely be estimated. Superintendent Robinson feels highly elated and intends to explore the strike with the utmost energy. More men will be put to work immediately, and the stockholders will soon know the extent and richness of the development.

MEXICO.

Shot by their Own Troops.

EL PASO, Texas, Jan. 28.—Strong rumors prevail here of the secession of the state of Jalisco, headquarters at Guadalajara. It is not yet confirmed. At Puerto del Chocolate, near the frontier, two Mexican officers were wounded, Captain Jose A. Romero fatally, and Lieut. F. Gonzales seriously, by their own drunken soldiers.

Yellow Fever.

CITY OF MEXICO, Jan. 25.—In Temax, Yucatan, there are 170 cases of yellow fever, 120 have died.

A strong friend of St. Jacobs Oil is H. T. Duncan, Esq., of the Lexington (Ky.) Press. He says: A short time since, St. Jacobs Oil was prescribed in my own family by a regular physician, and it was used with the most satisfactory results, as usual.

Gambetta's downfall is regarded with great satisfaction in Berlin.

EUROPEAN LETTER.

Gambetta's Downfall--English Abuse of America--Literary, Musical and Theatrical Notes.

[SPECIAL DISPATCH TO THE OREGONIAN.]

NEW YORK, Jan. 29.—The Tribune has the following, dated at London, Jan. 15th:

Gambetta's defeat is the logical parliamentary result of his irreconcilable differences with the chamber, which he has rightly compelled to declare definitely whether it was for or against his ministry. The chamber sensibly preferred its own prolongation to consolidation and a strong government. Gambetta's confidence in the ultimate support of the constituencies is unshaken.

I have ministerial authority for saying the dispatch of English troops to Ireland indicates only a determination to ensure more energetic enforcement of law. Troops are wanted for the protection of loyal citizens. The existence of any important conspiracy requiring military repression on a large scale is discredited.

The verdict in the Guiteau trial is universally approved, but elicits from the Times the most offensive article since the rebellion. It declares that the American people are satisfied with the conduct of the trial which was a broad farce enacted in court without one symptom of popular disapprobation. It doubts whether the nation which has turned the sufferings of Garfield into food for sensation, the crime into jest and the trial into a prolonged farce, has the right to hang Guiteau. It insists that English sympathies expressed at the time of the president's death are now proved to have been unnecessary, and it affirms that all Americans, educated people excepted, sat by Garfield's bedside not as sympathizing friends but as dabblers in the mysteries of physiology, and special authority on the chances for a man threatened with pyaemia. The whole article is a series of studied insults.

The Saturday Review follows suit in remarking that Guiteau is a typical American, urging that not merely the peculiar offensiveness of the criminal, but the peculiarity of the crime itself, are directly traceable to democracy. The scandals of the trial, it says, are directly connected with the democratic politics of society, and it suggests that Guiteau's outbursts in court proceeded from generous indignation at finding his person restrained, his motives questioned, and his character assailed. It points to the shooting of the president as the result of a hundred years of unbridled democracy, and concludes that democratic helots may at least be thankful for an instructive lesson.

The substance of the new dispatches of Blaine and Frelinghuysen, published to-day, was received too late for editorial comment except in the Daily News, which was a brief, ill-tempered observation. The New York correspondents agree in stating that Americans regard the disclosure as extremely damaging to Blaine, most of the leading New York papers attacking him, and none defending him. One correspondent says the feeling against Blaine throughout the country is so bitter that it is safe to predict that his public career is ended.

Dr. Lyon Playfair, publishes in McMillan's Magazine for February, an article on American industries as affected by the tariff. It's full of free trade assumptions, but embodies many interesting facts and striking admissions. Playfair credits the protective system with the rapid growth of certain industries, such as cotton, wool and iron, and concedes that American manufactures, though alleged to be dearer, are honest, and good. American mechanics are, he says, more honest and efficient than foreign, and he concludes that nobody expects the speedy establishment of free trade, nor is rapid transition desirable. He declares it impossible not to foresee that the United States is about to become the greatest manufacturing country in the world.

An important unpublished work by Carlyle has been discovered lately. It is entitled, "A Tour in Ireland in 1849," and comprises notes on the moral and political condition of that country of the most stringent character and greatest interest. This manuscript was unknown to Froude. When it was submitted to his examination he was so much delighted that he volunteered to write an introduction when it was to be published in book form. Meanwhile it has been secured by Edmund Gosse for the Century Magazine, where it will shortly begin to appear as a serial, simultaneously in London and New York.

Bret Harte, referring to Lanigan's accusation of foisting a collection of fables published over Harte's name in England, desires to have it stated that the very existence of such a book had been unknown to him till lately, and he finds on examination that it contains three brief pieces written by himself years ago. The remainder, comprising upwards of fifty pieces of somebody else's book, has been published without Harte's authorization or knowledge, his name evidently being used to advertise it. He has written to the publisher protesting against the misuse of his name.

Earl of Rosebury's Scottish tenants to the number of 120 last night celebrated the birth of his son and heir, at a dinner in Edinburgh. Lord Rosebury wrote cordially acknowledging the expression of friendship and hoping that the boy hereafter will follow in the footsteps of his great grandfather, who laid the foundation of the existing good feeling between landlord and tenants.

The American debutante, Lillian Larue, from New Orleans, has appeared in Carl Rosa's English company as "Carmen." She sang intelligently but her voice is hardly equal to the requirements of an immense theater. She won marked dramatic success, having acted "Carmen" better in some respects than has yet been seen, but she lacked Selina Dolaro's elegance, although more refined than Minnie Hauk. She was full of vivacity, ease and spirit, and much applauded by a large audience.

Balf's Moro will be given to-night for the first time in England. Mlle. Valleria is the heroine and Carl Rosa conducting.

Mrs. Langtry has received two proposals to visit America, but she accepted neither for the present, being resolved not to go there this year. She continues till May at Haymarket theater, where her successes are continued. She will make a tour in the provinces and return in the autumn to Haymarket theater.

Several shot entered his side, and but for a memorandum book in his side pocket, death would have resulted. It is thought that amputation of the right hand will be necessary.

HUB PUNCH,

TO TOP OFF A DINNER,

May be Drank Clear, as a Cordial.

For a dinner thoroughly appointed, the good old way was to wash down the last triumphs of the feast with copious libations of rich, rare and curious old Port and Golden Sherry; but "HUB PUNCH" has added a new sensation to the epicure. Its delicacy, aroma, flavor, and delicious, but gentle effects, proclaim it the nectar fit for the gods banqueting on Olympus.

Mix HUB PUNCH with Ice Water, Cold Tea, Lemonade, or Soda. It is unanimously pronounced unrivaled.

EQUITABLE
LIFE ASSURANCE SOCIETY,
120 Broadway, New York.

LIFE INSURANCE PROFITS DEMONSTRATED BY ACTUAL SETTLEMENTS MADE PRIOR TO 1862.

The Society is now paying maturing Tontine Policies with the following remarkable results:

POLICIES CARRIED TEN YEARS WITH THE RETURN OF ALL PREMIUMS PAID AND INTEREST THEREON.

1st Example: Policy No. 43,563, issued May 25, 1860. Amount $10,000 00
Total premiums paid (10 years) 5,504 00
The assured was entitled to draw, in cash, $6,455.80, having had besides $10,000 of insurance for eleven years. 115 per cent. of premiums paid, returnable in cash.
This example and those which follow show that

LARGER PROFITS ARE PAID POLICY-HOLDERS THAN ARE NOW DECLARED BY ANY OTHER COMPANY.

2d Example: Policy No. 58,543, issued Dec. 30, 1870. Endowment 20 years. Tontine Period ten years. Amount $10,000 00
Total premiums paid (10 years) 7,330 00
The assured on Dec. 30, 1880, was entitled to draw in cash, $9,033 30, 120 per cent of the premiums paid.
These results, although predicted by carefully made estimates, are

NOT ESTIMATES, BUT ACTUAL CASH RETURNS.

3d Example: Policy No. 41,621, issued March 27, 1869. Amount $5,000 00
Total premiums paid 2,006 95
In this case the assured withdrew, March 27, 1880, in cash, $3,312 45, being 111 per cent. of premiums paid.
Many policies will be thus paid in 1882, showing

CASH RETURNS OF FROM 100 TO 120 PER CENT. OF THE PREMIUMS PAID.

Assets securely invested of $43,000,000. Surplus, nearly $10,000,000. The Society's popularity is shown by the fact that for the past eleven years the total amount of new policies issued has been greater than that of any other company in existence, thus making its average

ANNUAL NEW BUSINESS LARGER THAN THAT OF ANY OTHER COMPANY.

The Society pays death claims promptly and in full. Its policies are clear and concise, and with no unreasonable conditions.

EVERY POLICY BECOMES INCONTESTABLE AFTER THREE YEARS.

WRECK OF THE RAINIER.

The Crew Adrift for Nineteen Days before being Rescued by the Orient

SPECIAL DISPATCH TO THE OREGONIAN.]

EMPIRE CITY, Or Jan 29.—The bark Rainier, Captain John H Wolff left Port Townsend on December 31st for Honolulu with a cargo of lumber. January 3d she encountered a southeast gale of wind and on the morning of the 5th it shifted to the southwest still blowing a gale. The ship was found to be leaking badly and at 11 30 A M while all hands were at the pumps the ship was struck by a heavy sea which shifted the deck load, [illegible] the cabin and hove the ship beam ends at which time Captain Wolff was thrown against the mizzen stay fracturing his skull and breaking his back. He died in half an hour afterwards. The ship and fore rigging was cut away the masts then broke off and the ship righted. The crew lashed themselves to the poop to keep from being washed overboard. The provisions were all lost but five sacks of potatoes, one sack of flour and two gallons of vinegar.

On the 7th the wind shifted to the northwest with fine weather for ten days. On the morning of the 23d the brig Orient Capt Williams bound for Umpqua fell in with the wreck in lat 42 40 north lon 126 24 west there being a heavy sea running. The Orient lay by them for two days and on the 24th took them on board and landed them at Umpqua river on the 25th. The first officer John Ryan brought five of the crew here for medical care and attendance and all are now rapidly recovering from the effects of exposure and suffering during their 19 days on the wreck. The rest of the crew five in number remained at Gardiner City.

THE SMALLPOX.

A Plain, Truthful Statement from the Attending Physician

PORTLAND Jan 29, 1882

TO THE EDITOR OF THE OREGONIAN

In to day's *Mercury* I noticed a lengthy article regarding the prevalence of smallpox in our midst in which it was insinuated that the reappearance of the scourge was lack of caution on the part of attendants and myself that convalescents were too soon discharged from the pest house that domiciles and clothing were not properly disinfected and that the attending physician did not use the proper precautions regarding the changing and disinfecting of his clothes before he mingled with the people. As this is a matter of most vital importance to all our citizens, and as my answer to the *Mercury* would be delayed for a whole week I hope THE OREGONIAN will have the kindness to publish my reply.

1 No patient was discharged as long as a single scab was left on his body. He was furnished with an entire outfit of new clothing and the old ones burned.

2 All rooms and houses in which cases of smallpox were discovered were most effectually disinfected after the removal of the patient so that there is no case on record of people being infected in any such places after the precautionary measure was taken.

3 As far as I am concerned I hardly thought it possible that people would think me idiotic enough not to take all possible precaution to prevent my communicating the dread disease to anybody as undoubtedly my own family would be the first who would have to suffer under such gross aye criminal lack of precaution. Whenever I visit the pest house I put on an old suit of clothes covered by a long rubber coat which is only used on those occasions. After my return these clothes are changed, kept in an outhouse and frequently disinfected. How scrupulous I have been in regard to precautionary measures is proved by the fact that even books which I got from the Library Association have not been returned unless the same were first fumigated and disinfected a fact to which the librarian Mr Oxer can testify.

In regard to vaccination I wish to state that as long as two months ago I sent a communication to the board of health in which I recommended a wholesale vaccination suggesting that the board furnish the necessary virus to a number of physicians instructing them to vaccinate all who applied for it free of charge the city to pay such physicians at reduced rates. I thereupon received from the authorities as occasion required supplies of fresh bovine virus and vaccinated in and around such places where the disease had shown itself all persons who were willing to have it done.

In conclusion allow me to state that the citizens of Portland owe a heavy load of gratitude to their noble and self sacrificing chief of police Mr Lappeus. To him alone is due that the scourge has not assumed more formidable proportions in our midst. In a city like ours with a shifting population and over crowded boarding houses it was a herculean task to keep a disease whose contagion is more certain and powerful than any other within bounds. During more than three months he has worked day and night for his fellow citizens and only has he stood by his post. It has been a constant surprise to me that he has not long before this succumbed to the constant strain upon his mental and physical powers. It is very easy to sneer and criticise but it is only one in a thousand who will fulfill a most disagreeable duty in such a manner, without a thought of acknowledgement or reward. Honor to whom honor is due. Respectfully yours,

DR F A MEYER

THE DAY OF ATONEMENT

Sermon by Rev Dr Jones of Petaluma at the Congregational Church Yesterday

[illegible]

After this the priest took two he goats [illegible] and sprinkled [illegible] on the altar thus purifying [illegible] other part from the sins of priest and people. Putting His hands upon the head of the living one He confessed all the sins of the past year then gave him to the hand of a chosen person who led the goat away far into the wilderness there to let him loose bearing away the sins of all Israel. This again leads to Christ. See Him lingering around Jerusalem some time before the last passover. The last night it was evident something great was about to happen. How he talked and prayed. At last He [illegible] it in the dark night when it was very [illegible]. There He appears to the high priest lifting the vail and approaching very near the divine presence. But he has no [illegible] for himself or kid for the people. He offers himself once in the end of the ages making one great atonement forever and bringing in everlasting righteousness. Neither was it necessary to have a second to carry away sin for he is the lamb of God that taketh away the sins of the world. He not only died to redeem us but rose again for our justification. Christ more than fulfilled all the types of the ceremonial law. He made effective forever what they symbolize.

What an important thing was this taking away sin. Suppose an Israelite living near the wilderness should know the scapegoat. There it bore his own sins and those of the nation with all their curses. It would terrify him more than if he saw a person with the smallpox or yellow fever approaching.

The holy spirit has used very strong comparisons to show how effectively Christ takes away sin. As far as the east is from the west so far hath he removed our transgressions from us casting our iniquities to the depths of the sea—blotting them out. When the high priest had finished his day's work, he put on his priestly garments and began another year of sinning. But Jesus by his own blood entered the tabernacle not made with hands even heaven itself and made it pure forever.

Paul says the pattern of heavenly things were purified with these but the heavenly things themselves with better sacrifices than these (Heb ix 23). Sin was once in heaven. Perhaps it was possible for it to enter there again until Christ purified the heavens with this sacrifice of himself. He showed on the one hand that there was no room for doubting but that God was doing all he could to benefit his creatures and on the other that no sinner can possibly escape punishment in the government of God. Thus he purified heaven from sin forever.

Last of all the sacrifice itself was taken without the camp and burned altogether signifying perhaps that our sinful flesh must be put off and utterly destroyed. We must deny ourselves and become new creatures.

In meditating upon this subject we ought to value Christ very highly for it is through him that every good has come to us. Through his death we are saved. By his stripes we are healed.

The Daily Oregonian.

MONDAY MORNING, JAN. 30, 1882.

NEWS OF SATURDAY.

[From the Sunday Oregonian.]

WASHINGTON, Jan. 28.—In the criminal court this morning Scoville and Reed, counsel for Guiteau, appeared. The former inquired whether he would be compelled to set up specifically in his bill of exceptions or whether a general exception would suffice. Judge Cox stated that under the practice of the court he would have to except specifically. Scoville then stated that he had intended to file a motion for a new trial, but would like to have until Monday, and stated that he would file a motion this afternoon in the clerk's office. The district attorney asked the court to assign Tuesday next for argument of the motion, but upon representations of Scoville that he would scarcely be able to enter upon an argument then, the court declined to fix the time.

Iowa Prohibitionists' Platform.

DES MOINES, Jan. 28.—The state temperance convention agreed to ask the legislature to submit to the people a constitutional amendment prohibiting the liquor traffic in the state. The resolutions denounce saloons as the chief source of crime and poverty; denounce Senator Logan's bill to convert the whisky revenues to the educational fund, and request Iowa's senators to oppose it; commend the woman's christian temperance union, and appeal to intelligent and virtue-loving people to support the prohibition amendment. The Logan resolution, after a heated discussion, was adopted, making it impersonal.

A Piece of Folly.

ST. LOUIS, Jan. 28.—J. M. Kershaw, on order of the stalwart leaders, has struck off 330 bronze medals to commemorate the steady voting of the 306 at the Chicago convention. The affair has been kept very secret. The medals are perfectly round, 2¾ inches in diameter, ¼ of an inch thick, weight nearly a pound, profile of Grant on the center of the face turned with laurel and Oak leaves. Outside this is the record of the 306 Grant ballots in a complete circle. On the center of the inverse side is, "Commemorative of the 306 ballots of the Old Guard for Ulysses S. Grant for President; Republican National Convention, Chicago, June, 1880."

A Nihilist Threat.

NEW YORK, Jan. 28.—*Herald's* St. Petersburg: Fresh numbers of a nihilist journal are being circulated and sent under envelope to the court and to the ministers, dignitaries and regiments of the emperor. It is dated Dec 12th. It was probably printed and introduced from abroad. In its leading article the editor says: "The coronation of the czar, fixed for the 25th of May, will never take place; therefore make no preparations for it. Many things will occur between this and the 25th of May. Do not throw away your money needlessly. It is simply ridiculous and disgusting."

A Family Poisoned.

CORINTH, Ky., Jan. 28.—A family named Romano, living in the outskirts of town, were poisoned night before last at supper. Arsenic was in the corn bread some of which they ate. Five of the family are lying at the point of death. No investigation.

Death in Pork.

MINNEAPOLIS, Minn., Jan. 28.—In addition to three persons who died from trichinæ recently in Minnesota, five more of seventeen who were stricken are despaired of.

The Extreme Penalty.

ROCK ISLAND, Jan. 28.—The jury in the Hellwagen murder case this morning brought in a verdict of murder in the first degree, and fixed the punishment at hanging.

Hanged.

MANSFIELD, La., Jan. 28.—Edward Belton (colored), for attempted murder and highway robbery, was executed yesterday.

The Smallpox.

PITTSBURG, Jan. 28.—Ten new cases of smallpox; nine in Allegheny to-day; 27 deaths per thousand inhabitants in the city for the past year; 1578 cases and 448 deaths from it.

A Dastardly Attempt.

NEW YORK, Jan. 28.—An attempt was made to wreck a train on the New York Central, by driving a piece of wood between the rails at Riverdale avenue, near the iron bridge, but was frustrated by a flagman.

Arrest.

DETROIT, Jan. 28.—Dr. Cox, physician of Mr. Scneider, has been arrested on a charge of complicity in the celebrated Whitelaw murder case.

Dangerously Ill.

PHILADELPHIA, Jan. 28.—A well known actor, John E. McDonough, is dangerously ill, suffering from cancer involving the lower jaw, tongue and neck.

Flood at Pittsburg.

PITTSBURG, Jan. 28.—The lower parts of Pittsburg and Allegheny are under water. There is no great damage yet and the river is stationary.

A Disastrous Explosion.

NEW YORK, Jan. 28.—At the dumping ground on East Ninety-ninth street Benjamin Burns, aged fourteen years, picked up from the debris what appeared to be a tomato can filled with grease. He threw it into a bonfire, when an explosion immediately occurred violent enough to throw a saloon keeper in an adjoining street from his stoop. Dense black smoke and a cloud of ashes obscured the scene. When it drifted away ten persons were found lying in the lot injured. Benjamin Burns was killed. The wounded are: Mary O'Keefe, Eliza Jones, John Ross, Joseph Jones, Albert Jones, Catherine Miller, Michael Palerno and Thomas Ward. Some are severely wounded. The can is thought to have contained nitro-glycerine.

Eads and His Schemes.

NEW YORK, Jan. 27.—*Times'* Washington: The supporters of Eads' bill for a ship railway across the isthmus of Tehuantepec say that a new railway line from California to New Orleans will be able to make its rates so low that British freight vessels in the grain trade around Cape Horn will go out of the business, and that when the sea vessels have been driven away the railway company will make its rates so high that grain growers on the Pacific slope will be at the mercy of a monopoly. On the other hand they declare that the construction of a ship railway will open a competing line which will prevent the Southern & Texas Pacific roads from oppressing producers. This argument leads Eads to believe that he will have the support of the American farmers. He is on hand at the beginning of the session of congress prepared to spare no effort in an attempt to accomplish his purpose. Thus far his sanguine expectations do not seem to be warranted by the sentiment of the body from which he must secure his subsidy if he secures it at all on this side of the ocean.

WASHINGTON CITY.

The Postoffice Appropriation Bill.

WASHINGTON, Jan. 28.—The postoffice appropriation bill has been reported to the house. It appropriates $43,634,300, being $22,500 less than the amount asked for by estimates, and $2,681,808 in excess of the amount appropriated for the current year.

Prospects Favorable.

The new apportionment bill is likely to become a law.

Washington Notes.

WASHINGTON, Jan. 28.—It is reported that Guiteau's counsel contemplate raising the question of jurisdiction and applying for a writ of habeas corpus. Leading lawyers here consider that it would be a formidable move.

President signed a bill retiring Judge Hunt of the supreme court.

Blaine will deliver his eulogy on Garfield in the house February 27th.

The president has signed the deficiency bill.

The president yesterday appointed H. B. Nichols, whom Mahone opposed, postmaster at Norfolk, Va. Mahone was surprised. He protested against it and secured a withdrawal of the nomination. Nichols and Congressman Desendorf are now at the white house. The president may again change his mind.

Washington specials state that Judge Blatchford is now more prominently spoken of as Chief Justice Hunt's successor; that Crowley does not want the secretaryship of the treasury, and that Judge Folger will remain in his present position.

THE SOUTH AMERICAN BUSINESS.

Minister Hurlbut's Letter to the State Department.

WASHINGTON, Jan. 28.—Following is part of the correspondence concerning Chili and Peru which has been made public. The Hurlbut letter was sent to New York and appeared this morning:

LEGATION OF THE UNITED STATES, Lima, Peru, Oct. 5, 1881—11 P. M.—Sir: I have just consummated an agreement made with the Calderon government on the 20th of Sept. for grant to the United States for a naval and coaling station at Chimbote. Concessions set forth in the protocol are not so strong as I would liked to have obtain, but they are all that the president alone without approval of congress could give. I look upon it in the relative position of the countries as giving to the United States, should it be accepted by you, a very valuable foothold which can hereafter be rendered more exclusive in matters of jurisdiction. The act of President Calderon is as effective in transferring rights as if he had been regularly elected president, and looking to the future I can see great possibilities in this grant, and Chimbote bay is by far the best on the coast, and coal mines in the interior to which it will soon be connected by way of railroads under construction furnish ample supplies of a good quality of coal and at low prices. The protocol and the approval of the same by President Calderon are enclosed with this dispatch. I have not had time to elaborate this question by this mail, but will do so by the next.

I have also at my own risk concluded with President Calderon an arrangement by which an unfinished line of railway will be turned over by his government to me as intermediary or trustee to transfer the same to an American company to complete, develope and operate it. By so doing it is easy to limit such company in the price to be charged to the United States [illegible] yet leave a large margin. [illegible] company [illegible] ered by the road [illegible] which the government has already spent over [illegible] million dollars, and [illegible] pleted for ten million dollars. [illegible] will be payment to the [illegible] million dollars and the [illegible] to clear all existing [illegible] they [illegible] road for twenty [illegible] years [illegible] not rent or liability [illegible] period the Peruvian government [illegible] the road by paying the [illegible] company, or to lease it for twenty [illegible] twenty-five per cent [illegible] cannot [illegible] other rights and privileges which I cannot here enumerate.

I have determined to accept this trust so as to save this very valuable grant [illegible] I am your obedient servant, S. A. HURLBUT.

CALIFORNIA.

Liability of Corporations.

SAN FRANCISCO, Jan. 28.—The supreme court rendered a decision to-day in the case of Morrow vs. The Superior Court by which it is held that corporations organized before the new constitution went into effect are subject to its provisions, and that shareholders may be sued for their proportion of debts of corporations.

Another Claimant for O'Brien's Money.

Another claimant is found for a modest portion of the estate of the late W. S. O'Brien of bonanza fame in the person of John O'Brien, a private of Company L, 8th U. S. infantry, now stationed at Benicia.

The Agitators in California.

Ireland's envoy, T. M. Healy, left Thursday for Virginia City, where he speaks to-night, and from there he proceeds to Philadelphia, after which he leaves for London to resume his parliamentary duties. He was accompanied as far as Benicia by his colleague, T. P. O'Connor, M. P., and Messrs. Toohy, Flanagan, Sheerin and Tobin of the state land league.

Remarkable Cause of Death.

HANFORD, Cal., Jan. 28.—The community was shocked to-day by finding the dead body of Dr. J. A. Carothers in his room. The coroner summoned a jury, who rendered a verdict that deceased came to his death by strangulation in a pail of water, being at the time under the influence of opiates and unable to help himself.

Mucilage Instead of Vaccine Virus.

SAN FRANCISCO, Jan. 28.—For some days investigation into the conduct of Dr. Lawlor, quarantine physician, for enforcing vaccination of immigrants, has been going on before the board of health. The British steamer Mary Tatham arrived a few days ago from Hongkong, and Lawlor caused her Chinese passengers, 676 in number, to be vaccinated. To-day, before the board of health, Mr. James, chief mate of the steamer, testified that before leaving Hongkong he was deputized to aid Dr. Lockhead and assistant Dr. McKeever in vaccinating the passengers; that McKeever told him during operations that it was of no use, as there was no vaccine virus in Hongkong, and that they were using mucilage. Nevertheless the steamer brought here a clean bill of health, signed by Lockhead and Consul Mosby, and also a certificate that the passengers had been vaccinated and properly attested.

WASHINGTON TERRITORY.

Personal and Otherwise.

OLYMPIA, Jan. 28.—Lieut. Commander G. C. Reiter, inspector of the 13th lighthouse district, and Capt. C. Rockwell of the U. S. coast survey, left this city to-day for Portland, Or., the former having completed the quarterly inspection of his district and the latter having made some pleasing sketches of the grand views on Puget Sound. Capt. Reiter, during his inspection of the lighthouse at Tillamook Rock, was informed by the lighthouse keeper that a piece of rock weighing about a pound was thrown clear over the lantern, which is one hundred and ten feet above high water mark, during the recent storm, and the inspector took away with him a rock weighing over six pounds which had been thrown on the roof of the building by the force of the waves, a distance probably of ninety feet. The lighthouse tender Shubrick having coaled at Tacoma will proceed thence to Astoria.

SATURDAY'S LOCAL NEWS.

[Condensed from The Sunday Oregonian.]

The postoffice is out of three cent stamps, and none will be received for a week.

Wm. Lusted, of Powell's valley, was stricken with paralysis last Tuesday and is lying very low.

Seven young men were arrested yesterday charged with playing keno. Each deposited $25 for his appearance Monday.

George Bell was arrested yesterday by Constable Grant, charged with stealing a pair of boots from Harris' on Front street. He was locked up in the county jail.

An injunction was served upon the owners of block 81, restraining them from proceeding with building the wharf at the foot of Pine street. It is returnable in the State circuit court, February 4th. Meanwhile work has been stopped.

BURGLARY AT SALEM.

Herron's meat market at Salem was entered by burglars some time during Friday night and the safe relieved of some $385 in coin. Entrance was easily effected through the back door and the safe—an old-fashioned affair—was unlocked by the skillful use of a wire in the hands of an undoubted expert. No clue has yet been found to the participants in the transaction.

REPORTED CHANGE IN STEAMERS.

It is reported that the steamship City of Chester will take the place of the Eureka now running to Victoria and Alaska ports, on account of the inability of the Eureka to do the necessary work, being so small. Although the report has not been substantiated, it is probably true, as the Alaska business has largely increased within the last two years; enough to even make use of two steamers with the carrying capacity of the Eureka.

CHARTERED FOR CHINA.

Yesterday the Oregon Improvement Company's collier Willamette, Captain Meyer, was chartered by W. J. Hawkins & Co. for a voyage to Hong Kong. She will leave Departure bay about March 10 with coal enough for the trip, but with no other cargo. Returning she will bring one thousand Chinamen for the Northern Pacific and a few hundred tons of merchandise. The steamer will arrive out about April 15th and return to Portland by June 1st.

STRICKEN WITH PARALYSIS.

News has reached this city by private letter that Mrs. W. S. Ogden, of Washington, D. C., daughter of the late Thomas J. Dryer, founder of THE OREGONIAN, has had two strokes of paralysis, and is now a patient in a private ward of Providence hospital in that city. Her right side is entirely paralyzed, and she is sinking very fast. She is attended by Dr. Bliss, but no hopes are entertained of her recovery, and she is so low that she has not been able to recognize friends.

LARGE RAILROAD CONTRACT.

Yesterday the Oregon Railway and Navigation company concluded negotiations with J. B. David, C. D. Bates, R. M. Steel and others, composing the newly organized Oregon Construction company, and awarded them a contract for constructing the railroad grade from Pendleton to a point near La Grande, a distance of fifty-seven miles. This includes the heavy work over the Blue Mountains. As originally surveyed there were four tunnels, but the company now think they will be able to get through with one, which will be less than four hundred feet long. The contract requires that the work be completed by the first of October, 1882. Operations will begin immediately.

WHAT MULTNOMAH COUNTY OFFICES PAY.

The last legislature passed a law requiring each county clerk, sheriff and district attorney within this state, on the first of January and July in each year, or within thirty days thereafter, to make to the secretary of state a written return for the half year ending on said days respectively, of all the fees and emoluments of his office, of every name, character and description, and of all necessary expenses of his office, including necessary clerk hire and salaries of deputies. It also requires the sheriff and clerk to file such statements with the county court.

County Clerk A. E. Borthwick Saturday complied with the law, and testified that the net receipts of his office above all expenses for deputies, etc., for six months ending Dec. 31st, were $6,497 05. For the previous six months, the net receipts were $5,848 65, making a total for the year of $12,345 70.

Sheriff Bachtel filed his statement, showing that the net receipts for the past six months, above expenses, were $4,313 18; previous six months, $7,051 05, making a total of $11,363 23.

OREGON AND CALIFORNIA EXTENSION.

The Roseburg *Plaindealer* says that active work on the extension of the Oregon and California railroad has begun. Last Monday's train, it says, brought up 35 Chinamen, who are to be used on the rock point just above town and 125 more have come since. At present there will be but three or four gangs, who will be stationed along between here and three miles south. Six thousand pounds of powder are stored in the company's powder house at present and more will come as it is needed. Sixty "dump carts" came up Saturday evening last, which will be used in "cuts and fills." Andrew Jones is at work on a pile driver which will soon be completed. Henry Bowen, with efficient assistants has the blacksmith shop in running order up near the flouring mill and is at work on drills, which he has been putting and keeping in order. Lumber is on the ground for a culvert across the sink just below the new mill, also for the bridge across Parrot creek just south of town, and places have been excavated for the piers on either side. At last the agony of suspense is over, and the people at large will rejoice that the fog has lifted and that we are to have a through line of railroad, which will be of almost incalculable benefit while building, and of greater benefit after it is built.

DEATH OF A PIONEER STEAMBOATMAN.

Daniel B. Foster, well known to all the traveling public as a pioneer steamboat clerk, died yesterday at his residence near this city, aged 55 years. He was a native of Norwich, Connecticut, and came to the Pacific coast early in the fifties. In 1853 he was steward on the Confidence, plying between San Francisco and Sacramento. He came to here about the outbreak of the Nez Perce gold excitement, and was at one time purser on the Wilson G. Hunt, plying from this city to the Cascades. When the writer came up here in 1870 he found Dan proprietor of the bar on the Oneonta. When the bars were abolished in 1879 he bought the Oro Fino saloon out from J. H. Lappeus, in connection with L. A. Willis, but his health failed so rapidly that he was obliged to retire from the business. Since then he has been slowly sinking, until death terminated his long sufferings. His malady was acute rheumatism, which finally settled in his heart and ended his life. Foster was a genial man, ~~of~~ kindly impulses, and his death will be deplored by many who respected him as a true man. Three steamboatmen who came up here from the Sacramento river have died within the past ten months, the other two being Capt James W. Gist and the greatest of all swift-water pilots, Capt. Thos. J. Stump, who fell at the wheel of the Spokane, and of whom it might be truthfully said that [illegible]

DR. PAUL M. BRENAN

The Most Successful Physician on the Pacific Coast in the Treatment of

ALL CHRONIC & DIFFICULT DISEASES.

DR. BRENAN WILL GUARANTEE TO CURE any form of Disease of the generative organs or private disease. He has become an expert in the treatment of disease, weakness and derangement of the reproductive organs of both male and female, including diseases caused by the

FOLLIES OF YOUTH,

Such as SPERMATORRHOEA, or SEMINAL WEAKNESS, or LOSS OF PERFECT VITALITY. Nearly two-thirds of all the Chronic Diseases spring, either directly or indirectly, from some derangement of the sexual system, and yet this subject is neglected by the majority of the Medical Profession.

I know that persons who are unfortunate enough to be afflicted by any form of sexual disease have a delicacy in calling upon the proper physician in time, from a sense of modesty and sometimes from ignorance, and permit those diseases to exist until their constitutions become corrupted, their organizations broken down and the hope of future happiness blighted, and death becomes a welcome messenger to carry them out of their miserable existence.

Everything strictly confidential under all circumstances.

Lost manhood perfectly restored. Catarrh, Bronchitis, Throat Diseases, Skin Diseases, Rheumatism, Kidney Complaint, and all Diseases of the Eye and Ear, Stomach and Bladder, he can cure without fail.

Consultation Free, and a list of printed questions sent to those living at a distance who cannot consult him personally. Enclose postage stamp for list.

Office—132 and 134 Third St., opposite Masonic Hall. Office Hours—From 10 to 12 A.M., 2 to 5 and 7 to 8 P.M. to All letters of professional business must be addressed DR. PAUL M. BRENAN & CO., Portland, Oregon.
